AUBURN UNIVERSITY

COLLEGE OF AGRICULTURE

August 1, 2014

Greetings from the College of Agriculture at Auburn University! I hope you are well on your way to preparing for the upcoming school year—we have been hard at work over the summer preparing for some exciting events for you and your students to take advantage of. In this packet you will find a new poster highlighting the College of Agriculture, flyers for our upcoming events, and a list of upcoming events for you to share with your students.

Please keep in mind some key points when encouraging students to look into majors in the College of Agriculture:

- **Scholarships:** Each year our College of Agriculture offers over \$600,000 in scholarships—this is the 3rd largest scholarship program on campus. Our scholarship application opens October 15th and closes February 15th: www.auburn.edu/scholarship/ausom/
- **Diverse Majors & Opportunities:** The diversity of the programs in our College is unmatched. From Food Science to a Pre-Vet/Pre-Professional option, to Environmental Science and Fisheries & Allied Aquacultures, to Agricultural Communications and Agricultural Business & Economics—the possibilities are endless.
- **Career Opportunities:** Graduates from our programs have a high placement rate, with some majors having 100% placement for graduates. One in six jobs in the U.S. has a connection to food or agricultural sciences. We also offer specific career development programs within the COA to help place our graduates, including an Ag Alumni Mentoring Program that pairs current students with outstanding alumni in their field of interest
- **Admission Information:** Stress to your students the importance of applying early! Applications for freshman wishing to enroll in **Fall 2015 open September 1st—the deadline is January 15th**: www.auburn.edu/apply

Please encourage your students to contact us to set up a visit to campus, sit in on classes, tour our research facilities, and meet with faculty representatives in our departments. We would be glad to host your students and their families for a visit to The Plains! We can also accommodate large group tours—just contact us for more details. If you have any questions or we can help you or your students in any way, please do not hesitate to contact us.

Sincerely,

Amanda L. Martin

AG ELITE

Elite noun: The best of a class.

Ag Elite noun: Auburn University College of Agriculture program celebrating talented, high-achieving minority students who are interested in science and improving people's lives.

Come to the on-campus Ag Elite reception Wednesday, Dec. 3, to explore the many food, agricultural and environmental science majors available to students in the College of Agriculture and the diverse career options those majors will prepare you for. During the Ag Elite program, you can visit our eight academic units, hear from a few of our current students and successful alumni, learn about our scholarship program and have lunch with faculty representatives. A \$1,000 Ag Elite scholarship will also be awarded at the program's end.

The Ag Elite application deadline is Nov. 21, but space is limited, so apply early. Dress is business casual, and you can bring up to two guests. To apply online, go to ag.auburn.edu/students/future/events and click on the Ag Elite button. A personal phone call and an official invitation will follow.

For more information please contact:

2014 AG EXPLORATION DAYS

The Auburn University College of Agriculture is pleased to invite you to the upcoming annual Ag Exploration Days! This program has been established so that students will have the opportunity to travel to a central point in their region and participate in a presentation about the College of Agriculture, opportunities in agriculture, and college life at Auburn. **There is no cost and a meal is provided at the end of the program for all students, teachers, and guidance counselors in attendance.**

The program is geared toward high school sophomores, juniors, and seniors who are interested in pursuing a career in general science or the agricultural industry. Our majors cover all sides of the agricultural science industry from Food Science to Ag Communications and Landscape Horticulture to Agricultural Business and Economics. **With over \$600,000 in scholarships awarded annually to our College of Agriculture students and some majors having 100% job placement for graduates, a major in agriculture is worth checking out.**

Students in attendance can look forward to a schedule that will include:

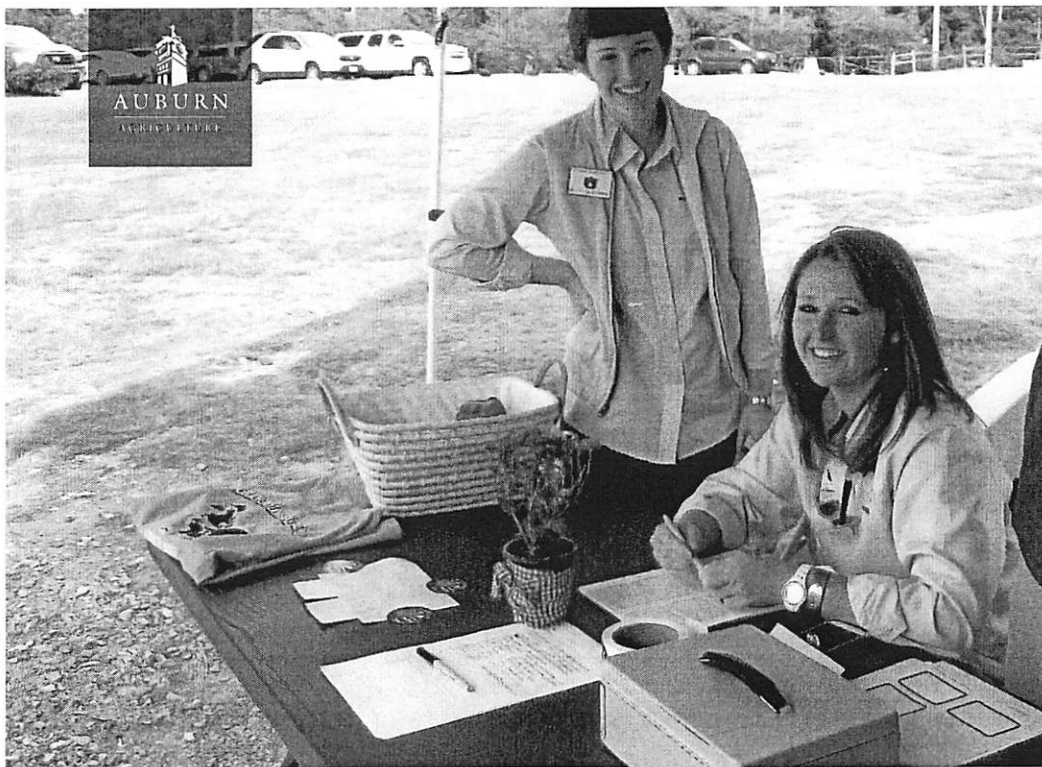

- Tour of the agricultural research center
- Learning more about the majors offered in the College of Agriculture
- Hands on activities and demonstrations
- Meeting current students, faculty, and alumni from our College
- Finding out more information on scholarships, the application process, and career opportunities
- **The events usually start at 9:00 am and wrap up by 12:30 pm**

Thank you for your interest in becoming a part of our Ag Exploration Day tradition. If you are interested in bringing students to the event, please coordinate with others at your school (Guidance Counselors/Science Teachers/Agriscience Teachers) that may also be bringing students. **To register for the event and see when these events will be held in your area, please visit:**
