

# Anniston Regional Fire College High School Training Program Fire Management Services

## PROGRAM DESCRIPTION

This program provides high school seniors an opportunity to immerse themselves in the exciting and rewarding career field of the fire service. Students are trained to the state standards of a certified volunteer fire fighter. This training encompasses all the requirements set forth by the National Fire Protection Association (NFPA), and the Alabama Firefighter's Personnel Standards and Education Commission. The training is provided in cooperation with the Alabama Fire College and is accredited by the Pro Board Fire Service Professional Qualifications System and the International Fire Service Accreditation Congress. Upon completion of this in depth training, students are certified as a volunteer firefighter. They also will complete an Emergency Care Provider Course (ECP) and learn valuable first response emergency medical care. Students that complete this training are eligible to enter a "Bridge" recruit school to earn their Firefighter I and Firefighter II certification in five additional weeks of hands-on training. Successful completion of the "Bridge" program allows the student to immediately enter the workforce as a fully certified career firefighter. The Fire Science Program classes will be held at Anniston Fire Station #3 and Alabama Fire College Regional Training Center at 5304 McClellan Blvd. Anniston, AL 36206.

## REQUIREMENTS

- \$50 program fee to cover course fees and uniform.
- Candidates must pass a physical test. Program requires daily physical training.
- Recommended GPA of 2.0 or higher.
- Students may be required to pass a drug test prior to admission into the summer "bridge" program
- Students will be transported to the training facility via county bus transportation. Students will only be able to drive to the fire training facility in unusual circumstances.
- Attendance and discipline records must be attached to this application.
- Training session times: Will coincide with the Calhoun County Career Academy session times.
- Candidates will be interviewed by committee comprised of representatives from Anniston Fire Department and local school personnel.
- This class will follow the same calendar adopted by the Calhoun County Board of Education

### To the Student:

*The Fire Science Program provides an opportunity to be considered for training toward certification as a Volunteer Firefighter. When you enroll in the Fire Science Program, you indicate that you are sincerely interested in putting forth your best efforts to attend and complete the training course. If you accept this responsibility, please sign in the space provided.*
